THE UNIVERSITY OF CALIFORNIA AT BERKELEY invites applications for a lecturer position in Electrical Engineering and Computer Science beginning in the 2001-02 academic year with excellent possibility of extension. Applicants should have received (or be about to receive) a doctoral degree in Electrical and Computer Engineering or a related field. A principal requirement is demonstrated excellence in teaching. Successful applicants will be expected to teach undergraduate core courses in Electrical Engineering. The introductory courses, EECS 20, 40, 42, 43, and 100 are of particular interest. For a description of the courses see our website: www.eecs.berkeley.edu/Students.classes.shtml. Interested persons should send a resume, some examples of written work including teaching materials, a list of courses in EECS (including CS division courses) that they are competent to teach, and the names of three references to the address below. The applicant should request their references to forward confidential letters of reference directly to the same address. These letters should offer a technical evaluation of the candidate including teaching performance. Electronic applications can be sent to the e-mail address below: however, all documents should also be sent in paper form. To insure time for full evaluation, applications should be submitted by May 31, 2001; earlier applications are encouraged.
