

The VolHacks organization will be hosting its 5th annual [Hackathon](#) event this semester from **October 29th-31st** in the **Min Kao Building**! This event is free to attend either in-person or virtually, allowing students to bring their ideas to life for a chance to win amazing prizes. Registrations are now open on our website at www.volhacks.org!

Participants work in teams of up to 4, so bring your friends! We also provide optional team-building activities if you're looking for a team. In-person attendees are also provided with free shirts, meals, snacks, drinks, and many other goodies! This is an incredible opportunity for students from UT and abroad to meet, brainstorm, build, and learn with each other in the form of a fast-paced competition.

Some of this year's sponsors include Elo Touch Solutions, TVA, Trimble, Siemens Healthineers, Wolfram Alpha, and more. Sponsors will send mentors to help and guide the participants through their projects, giving students valuable 1-on-1 conversations with industry professionals.

If you have any questions, don't hesitate to contact us at hello@volhacks.org.
