

## **Hagan Selected to Attend Prestigious Summer School**

Ronald D. Hagan has been selected to attend the 2013 International Summer School on HPC Challenges in Computational Sciences. The U.S. National Science Foundation's Extreme Science and Engineering Discovery Environment (XSEDE) project, the European Union Seventh Framework Program's Partnership for Advanced Computing in Europe (PRACE), and RIKEN Advanced Institute for Computational Science (AICS) have collaborated to offer this all expense-paid, highly competitive program for graduate students and postdoctoral scholars who use high-performance computing in their research.
