ECE 433/533 Laboratory Policies

1. There will be four laboratory classes every week. **Lab attendance is compulsory for the students in ECE 433**, and each student must attend any one of the four lab hours every week. Students in ECE 533 are not required to attend the lab, but they are always welcome if they need any help. **There will be a signature sheet to keep record of the attendance.**

2. When you are done with a particular lab, please take a print out of the TA check out form corresponding to that lab. If you feel comfortable with all the items in the form, let the TA know. The TA will sign the form and keep it.

3. Please try to finish the lab by the deadline; otherwise it will be difficult for you to catch up.

4. If you want, you can finish a lab before the deadline. For example, you can do labs 3-5 in one day and sign the TA check out form.

5. Grading will be done on your performance on all the labs.

6. During the lab hours, none other than ECE 433/533 students are allowed in the lab.

7. There will also be office hours posted on the lab webpage. During the office hours, the TA will be available in **MK 228** to answer any questions or help you with any problems you have regarding the course.

8. **ECE 433 students will form groups of three for the final project. ECE 533 students will form groups of two.**

9. Please feel free to talk to the TAs if you face any difficulties.
