

Acknowledgements

We express our appreciation to Dr. Samir El-Ghazaly, Department head of Electrical and Computer Engineering, UTK, for the financial support of this project and his enthusiastic endorsement.

Our thanks and appreciation also is extended to members of the Electrical and Computer Engineering Department at the University of North Florida for the assistance they have given us in setting-up this project. In particular we thank Dr. G. U. Merckel, Associate Dean and Acting Head of ECE, and Dr. John Alexander, ECE Department UNF. Mr. Matthew Mahin developed the board layout and the lcd.c/lcd.h, delay.c/delay.h files. He is an undergraduate (senior) ECE student at UNF. Also, Mr. Dan Bauerkemper was instrumental in the logistics of helping to pull the hardware and software together for the project. He is also a senior in the undergraduate ECE program at UNF. We greatly appreciate their help.
